Brown Fiberglass Flamenco Castanets: Bolero nº 5

These castanets are made of artificial fibre enriched by the chemist with wooden flour. The castanets

are brown with a matt tone and a soft touch of wax. This model is also made for numbers 4 and 6. The "neck" is slim and the "ears" are long so you can rest your thumb. The exterior has leaning angles to facilitate the movement of fingers.

The castanets are percussion instruments.

Filigrana is one of the most experienced traditional establishments on the flamenco market (Sevilla, España).

The company of craftsmen based in Seville offers highly resilient castanets, which are not susceptible to atmospheric changes and give a precise sound and a greater volume than wooden models. For the castanets' fabrication, they combine traditional knowledge and techniques in order to obtain solid castanets that will give professional dancers an instrument with the right precise sound.
