Bordados Foronda is the oldest shawls house in Seville dedicated to the manufacture of artisanal shawls. Currently Bordados

Foronda had manufactured Manila shawls for the Spanish Royal Family and other European Royal Houses.

The Manila shawl is associated with flamenco and Andalusian folklore, the shawl complements the

dress. It has also been used by famous Spanish singers and dancers, however its first use was as an everyday accessory.

The production is entirely handmade, only the hands of the artisans touch the products, no machine involved.

Both embroidery and fringes are manually processed.

All shawls are made with pure silk, stitch by stitch, with all the care and passion of our Andalusian women.

Composition: Natural Silk.

Measurements might change (125 to 135 cm, depending on the stitching of the shawl).

CORRECT WAY TO PRESERVE THE SHAWLS:

1.- Washing:

Never wash at home, always at dry cleaner's.

If you see a little mark, rub it with soap with a rag below the shawl.

Then iron the shawl.

2.- Ironing:

Iron the shawl the wrong way round with vapour iron, to enhance the embroidery.

3.- Preservation:

Hang your new shawl on a hanger, recover it with a cover and keep it from the light in your wardrobe.
