

○ Blue Salamander. Gaudi. 15cm

9.80 €
10.56 USD

Antonio Gaudi's Salamander is in the Guell Parc.

It is a modernist art work of the XX century. It is a catalan architecture design. It is necessary to say that the use of reconstituted fragments as decorative designs is the modernist mosaic technic "Trencadis" which Antonio Gaudi, the catalan architect, invented. Remember that this object is not a toy, it is decorative.

Measurements: 15cm
