8.17 USD

Castanets are always requested by tourists who visit us. They are very traditional items as they have a bullfighter's picture on one side of one castanet and, on the other castanet, a flamenco couple of dancers.

Although it is very difficult to play them, we keep on selling thousands of this folkloric instrument.

The Spain of flamenco and bull is still alive! At least this is what corroborate the memories of 52 millions of people who visit Spain every year.

These castanets are the most requested ones for parties and special events.
