

Special Sky Blue Case for Flamenco Castanets

14.84 €
16.17 USD

If you have good flamenco castanets, you should also have a good case that pampers them. This case is made of imitation leather, synthetic fleece-lining and counts with two metallic clasps.

This **case for flamenco castanets** is hand-made and can be used for all sizes.

To keep a good sound, you cannot forget about their care. It is advisable to keep them always in their case, because excessive humidity, cold and heat can split them and break them.

Our advice to clean this case is to take a wet cloth and mild soap. Do not use solvents, whiteners, detergents or polishing sprays.
