

🟡 Fan to be decorated or painted

8.26 €
8.92 USD

Do you feel like an artist and want to make your own fans? Now it is very easy!

Follow the steps below and you will make a work of art.

To make a perfect fan, pay attention to the following instructions:

-Buy the fan without decoration.

-Fix the fan. You can use masking tape to fix it.

-Gather the materials such as : water-based paint in different shades, oil or acrylic paint brushes, masking tape, 1 container with water, 1 plastic plate, 1 cotton cloth.

Depending on the colour of the fan, we will choose the colours to be used.

It is very important not to overload the paint brush so that the paint does not seep through the other side.

As the painting is done freehand, you need a very clear idea of what you want to create.

We recommend you to first sketch in pencil or trace the drawing you want to make on the fan.

The drawing can be sketched or traced in pencil. You can also set your imagination free and draw whatever comes to your mind.

Let it dry well before continuing.

Once painted, let it dry very well before removing the masking tape.

Measurements : 42x23cm.

Fabric : 6.5cm.

Cream colour.

Only the fan is sold. Paints not included.
