

Spanish veils (shawls) ref.402N. Measurements: 120x250 cm

128.80 €
140.32 USD

■ Size: 120 x 250 cm

The word 'mantilla' is originally Spanish. Our mantillas come in white or black. The 'mantilla' (veil) shows its big importance during the Easter Fiests and during the bullfighting afternoons. Sometimes brides choose to wear the white 'mantilla' (veil) instead of the tradicional veil and her bridesmaid wears a black one and a big comb, making this way a very Spanish and typical costume. They are an elegant alternative for the classic wedding veil. Use for social events and religious.

- Made up of one whole piece without seams.
- The composition is approximately between 20% nylon and 80% rayon.
- The 'mantilla is confeccioned in 'floche' (intermediate lace, mix of 'chantilly' and blond lace).
- Measurements: 120x250 cm.

Available in:

Black and Ivory. **For the measurements 250 cm x 300 cm, the veils only exists in colour ivory.**

We do not admit any return for this article, we only admit exchanges for another model.

Respecto a la forma de colocar una mantilla es muy sencilla, la peineta se debe de sujetar muy bien con infinitas horquillas y despues la mantilla se debe de colocar en pico sobre la cabeza, de modo que el pico te llegue a la nariz, asi se sujeta con el prendedor a la peineta y despues se recoge el pico en la zona alta de la cabeza con unas horquillas que van por el lado de dentro de la peineta, para terminar se sujeta la mantilla en uno de los hombros con un alfiler, generalmente lo que haces es inclinar la cabeza al lado contrario para que despues no te tire la mantilla.

If you want to dye the original shawl colour, you must know that:

- 1º it is a complicated process and not always you obtain the expected result
- 2º the shawl is always shrank in the dyeing process
- 3º the base colour which admit the best the dyeing is ivory, white always stands out, so if you buy a shawl to dye it, we advise you to buy the ivory one
- 4º no shawl includes cotton that's why the acceptance of the dye will never be 100% right
