Plain black skirts with 2 flounces, one black and the other one red. The waistband is made of an elastic band in order to fit better. It has a good price-quality ratio and its made of 100% polyester. Made in China.

These flamenco dance skirts are short (lower leg) since they are made for beginners, and it is necessary for the teacher to be able to see their feet.

VERY IMPORTANT. This product is not Spanish and its fabric is of an acceptable quality. Its design is correct; its tailoring is of a low quality, so it will not be strange to find a stream unstitched. Its tailoring is very basic, so we advise not to pull the seams and to check them out before wearing the skirt. This product always leaves our store checked, but a strict quality control is not carried out.
