New serie of photographic prints aimed specially for decoration.
Imprint in four colours. Paper made shine of 150 grs.
Size: 48 X 68 cms.

Using the digital technology we have assembled a collection of images full of color that give life to the series: FRAGMENTS OF THE FLAMENCO

Seeking to detain the look in the detail.

Habitually we look for the set. The totality.

In this case we want to show a part completely.

Here we do not identify the totality of the personage. Only we show a part of his configuration. Someone of the elements that serve him to show his art. A small part of the iconographic representation.

Edition: limited.
