31.71 USD

From the analysis of the main styles and through the flamenco repertoire (seguiriya, tientos and tangos), you will find in this DVD a detailed study of the main techniques characteristic of the flamenco guitar (strums, thumb and alzapúa), of the flamenco mode and of the main harmonic sequences and positions of derived chords, also of the metrical beat and the types of phrases typical of the three styles. Finally, you will find the constitutive elements of the flamenco guitar language (beat in strums, llamadas, falsetas and remates). An important place is reserved for the study of the accompaniment to el cante with the friendly participation of Maguy Naïmi and Rouben (flamenco singers).

DVD in Spanish, French and Italian.

Duration: 90 minutes.
