

Visual Method of Flamenco Guitar Vol.2 in Dvd by Manuel Granados

23.14 €
25.14 USD

The first multi-camera interactive flamenco guitar teaching method, that allows you to choose the camera angle that you want, left hand, right hand or score whenever you want.

This second volume reviews the rest of the styles not covered in the first volume and begins with the following: Tangos, Serrana, Solea por Bulerías, Farruca, Guajira and Fandango.

The "Método Visual de la Guitarra Flamenca" is the first interactive multi-camera method on the market. It features an option for choosing the camera angles. A wide shot of Manuel Granados (angle1), a shot of the left hand (angle 2), a shot of the right hand (angle 3) All of which is accompanied by an on screen music score.
