Didactic book "Flamenco piano" by Lola Fernández.

Flamenco Piano is a method devised to teach pianists how to play flamenco . It provides not only pianists but also composers, theorists and musicians in general with an in-depth study of the rhythm, harmony, melody and form structures of every flamenco palo and shows how these are practically applied to the piano . In addition to scores for learning and playing traditional flamenco, this innovative teaching material also includes tips on flamenco improvising, composing and fusion.

This book, the first in the Flamenco Piano series, focuses on the Soleá - also known as ' the mother of cantes ' for its wealth of musical structures.
