The major work of the flamenco guitar master 'Alberto Vélez' with CD

Contains eight of his principal work, notated by Oscar Herrero, Alberto Vélez performed with some of the most relevant flamenco guitarist as Ramón Montoya, Niño Ricardo y Mario Escudero. Acompañó al cante a Vallejo, Cepero, Marchena, El Gloria, Fosforito, Tomás Pavón, Valderrama, Canalejas...

This is about that grand maestro with whom, to my great, good fortune, I shared many a stage at the very beginning of my artistic career. We shared happy moments, and sad ones as well, through which he always set a wonderful example, both as an artist and a man. This is about our beloved and dear friend, Alberto Vélez. Through the expression of my music, I would like to let Alberto know that all his teaching and advice were not vain.

Remarks made by MANOLO SANLÚCAR in a concert performance on March 1996.
