David Leiva. Camaron(Guitar tab with voice)

Guitar tab and voice. Transcribed by David Leiva.

This book about Camaron is the first transcription of his work with some of his best themes, showing the melodic lines of the singing, the accompaniment and the falsetas for the guitar on the scores. The voice of the guitar is written with notes and codes, showing the accompaniment and falsetas. For some themes you'll find the second voice of the guitar and of the electric bass. The guitars that accompanied Camaron are the one of Paco de Lucia, Ramón de Algeciras, Paco Cepero, Tomatito and Raimundo Amador.

We offer a selection of different themes, including works of the first period of Camaron with Paco de Lucia, from the disc "La leyenda del tiempo", a very important disc for flamenco, and "Potro de Rabia y Miel", the last disc of the genius, an example for the young flamenco.
