- Las campanas de Santa Ana (siguiriya) exclusive

Emblematic figure of the 80's, Rafael Riqueni is one of the founder fathers of modern guitar. Among them he is the greatest musician and the most brilliant composer. This collection brings some of his masterworks, pieces that can be considered as milestones in the history of flamenco guitar. Rafael honoured the project of this book by offering in exclusivity for this publication, his last composition por siguiiriya, Las campanas de Santa Ana, here transcribed in the version he played for me. This is a superb gift for all of us as this piece has not yet been recorded on any CD.

6 pieces in tablature and musical notation.
