15. Yo Te Lo Digo Cantando (Ricardo Losada Maya "El Yunque")
16. Con Su Bata De Percal (Juanito Villar)

The flamenco tango is a style with a great rhythmic emphasis and is, with the bulería, the party-loving singing par excellence. It is a young and dynamic singing, in constant evolution, very used to direct and catchy choruses and is usually used by the flamenco artists to start their works and their performances. This compilation is a selection of styles and forms made by artists of unquestionable recognition. All these songs have a common denominator:... ALWAYS TANGOS.
