In 'El arte de lo invisible', released in 1993, the Carmona trio took a huge leap that secured them massive success among the public. 'Demasiado Corazón', featuring Aurora, or 'Vengo de Borrachera', are two of the highlights of this album. 'El arte de lo invisible' is a good chance to hear some of the origins of this Gypsy band that, almost 15 years ago, spearheaded this flamenco-pop mix known as New Flamenco.
