Digital music at the service of Flamenco.

Digitano is the last digital frontier of electronic rhythms serving, what is probably, the most beautiful music in the world, Flamenco. Digitano is a joyful and unedited musical territory, which is the brain-child of DJ Juanjo Valmorisco in his gypsy room packed with computers, digital technology and the best artists: Flamencos, Payos, Gypsies and Cuchichis.

Digitano, also known as ElectrOlé or Cuchichí Music, was born after a year of sonic investigation following the discovery of a random dawn on the Cádiz beaches or in the most modern Madrid clubs.

Instruments: cajones, rhythm boxes, palmeros, synthesizers, falsetas, sessions, duendes and samplers. The search and discovery of two musical styles.

Hip-Hop Tangos, Loca-House Buleria, Drum and Bass Tientos-Tango, Groovy Rumba, Azín zí dance and olés.
